Gaston-Cleveland-Lincoln MPO Metropolitan Transportation Improvement Program (MTIP)

March 2019

The GCLMPO has established performance management targets for highway safety and for transit tier 2 providers that choose to participate in NCDOT's Group Transit Asset Management (TAM) Plan and will establish federally mandated performance management targets for infrastructure condition, congestion, system reliability, emissions, and freight movement. The GCLMPO anticipates meeting their identified targets with the mix of projects included in the TIP.

The NCDOT has demonstrated fiscal constraint on the 2018-2027 STIP adopted on 8/3/2017. The GCLMPO TIP is a subset of the STIP and by extension therefore demonstrates fiscal constraint.
